

## US distribution of iron and steel-making raw materials

Ferrosource (a division of Stemcor USA Inc.) is a nationwide distributor of ferrous products, offering just-in-time delivery to North American steelmakers and ironmakers. The main products we handle are ferrous scrap, pig iron, HBI and ferroalloys. Ferrosource trades a wide range of grades, but specializes in those suitable for foundries.

Founded in 1994, our headquarters are in Tequesta, FL and we have district offices in Cleveland, OH, Battle Creek, MI and Chicago, IL. This is in addition to Stemcor's offices in Los Angeles and New York and in 40 countries around the world.

## Our Services

-  Distributor of pig iron to US mills and foundries
-  Domestic and international brokers of foundry and mill quality grades scrap
-  Just-in-time nationwide deliveries to our customers
-  Assist foundries and steelmakers to evaluate waste streams
-  Supply raw ferrous materials to the US cement industry
-  Competitive prices (due to the purchasing power of Stemcor's international network)
-  Tailored delivery programs, finance arrangements and payment terms
-  Personal service and long-term partnerships with our customers and suppliers

## Stemcor Group

Stemcor is the world's largest independent steel trader. The Group's services span every step in the steel supply chain, from the provision of steel-making raw materials to producers through to the delivery of processed steel to end-users:

**Raw Materials Trading (supported by mining and processing operations) - Steel Trading - Trade & Project Finance - Derivatives Trading - Consultancy - Countertrade - Shipping & Logistics - Wholesale Distribution - Stockholding - Processing.**

Stemcor's breadth of expertise, from minehead to factory floor, enables it to offer integrated supply chain solutions that deliver competitive advantage both to producers and purchasers of steel.
